## SUMMARY

Enthusiastic and detail-oriented BCA student with strong interest in full-stack web development and AI applications. Skilled in building responsive UIs, secure backend systems, and working with REST APIs and databases. Passionate about problem-solving, learning new technologies, and contributing to real-world projects in a collaborative environment.

## PROJECTS

### Ask Gemini – Full Stack AI Chat Application

React.js • Node.js • Express.js • MongoDB • Gemini API

- Developed a multi-session AI chat application with persistent message storage.
- Implemented a glassmorphic UI with sidebar navigation and responsive design.
- Integrated Gemini API with retry logic and error handling for accurate responses.
- Created backend REST APIs for sending, storing, and retrieving chat history.

### CureLink – Healthcare Management Platform

React.js • Node.js • Express.js • MongoDB • JWT

- Built a platform for uploading, viewing, and analyzing medical reports.
- Implemented JWT authentication and protected routes for secure user access.
- Designed clean dashboards for patients and doctors with responsive layouts.
- Developed backend APIs for reports, users, and AI-based categorization.

## EDUCATION

### Bachelor of Computer Applications (BCA)

Eternal University, Himachal Pradesh

2024 – 2027

## SKILLS

|                  |                                                           |
|------------------|-----------------------------------------------------------|
| Languages        | JavaScript, HTML5, CSS3                                   |
| Tools/Frameworks | React.js, Node.js, Express.js, Tailwind CSS, Git, Postman |
| Databases        | MongoDB, Mongoose                                         |
| Other Skills     | Problem-Solving, Communication, Teamwork, Time Management |

## CERTIFICATES

AWS GenAI – Udacity (2025)

Git & GitHub – Google (2025)

Meta Version Control – Meta (2025)

Prompt Engineering – 2024
